

# *Can We Talk? - Activity 1*

- Where are you from?
- Tell us something you learned in that place that is still with you today?
- Based on your partner's answers to your questions how might you represent this in a learning space?

# *Can We Talk? -Activity 2*

- Focus on intersections btwn space & place | identity | learning | technology
- What makes up a learning space? What factors are at play in a learning space that is successful (success=learning)? What about one that is not successful?
- Where do conversations about identity happen in your work?
- What if you were tasked with designing a pedagogical approach to a course on ETUG...What would be important in this process? History? Identity? /Where participants are from? What elements would be needed?
