Online Course: Instructional Design in Adult Education

How do people learn? What is an effective instructional model? Instructional design is a complex process with its own history, body of literature, practitioners and research community. Effective instructional designers understand learning theories and the systems approach to training as well as the development process.

Offered through Continuing Studies at the University of Victoria, this completely online course on instructional design benefits all those responsible for providing learning opportunities to working professionals. This is a practical course, focusing on the application of theory to the practice of teaching and learning.
